**RE: John Holland awarded two major contracts by Sydney Water**

Please find attached a copy of a media release to be issued today by John Holland Group Pty Ltd, a wholly owned subsidiary of Leighton Holdings Limited.

Yours faithfully,

R. Willcock  
Group Company Secretary

**ASX/MEDIA RELEASE**

## **John Holland awarded two major contracts by Sydney Water**

**Sydney, 24 December 2012:** John Holland has today been awarded two contracts for major water infrastructure services on behalf of Sydney Water.

John Holland will provide the project management services associated with Sydney Water's Networks and Facilities Renewal Program (NFRP), as part of a joint venture with Lend Lease. The Project Management Service Provider (PMSP) joint venture, will manage Sydney Water's projects through their lifecycle, from conception to commissioning and handover.

John Holland was also awarded a third contract extension for the Priority Sewerage Program (PSP) to deliver additional sewerage works to six communities in environmentally sensitive areas around Sydney. John Holland, as part of the award-winning PSP Alliance, will deliver program and project management, as well as design, procurement, delivery and commissioning works.

Stage 3, which has a total budget of approximately \$150 million, is required to be delivered over the next two years.

Group Managing Director Glenn Palin said the contract wins solidify John Holland's position as an industry leader in the delivery of major public sector water and wastewater projects.

"Today's announcements are a testament to our unparalleled project management capabilities, as well as the high standards of work we provide for our clients," Mr Palin said.

"We look forward to further building on an already longstanding relationship with Sydney Water, and will ensure its obligations are met under all programs."

Energy & Resources Executive General Manager Brendan Petersen said water is a core competency for John Holland.

"We will engage our proven project planning and cost control systems to ensure the effective and efficient delivery of work required for Sydney Water to meet its obligations under the program," he said.

"Our Water & Enviro business focuses on client needs and objectives from the initial phases of each project. We recognise that different business drivers and environmental pressures create different requirements, and we work with our clients to deliver the best solutions."

## **About John Holland**

John Holland, a wholly owned subsidiary of Leighton Holdings Limited (ASX: LEI), is one of Australia's leading engineering, contracting and services providers to the infrastructure, energy and resources and transport services sectors. Operating across Australia and in New Zealand, South East Asia and the Middle East, John Holland's business is driven by its collaborative approach to project delivery and its diversity of skills and capabilities.

John Holland's experience covers a wide range of contracting and services capabilities, from tunnelling, communications, building and civil construction solutions in the infrastructure sector to the delivery of major water and environment, energy, mining and minerals and industrial projects in the energy and resources sector. John Holland is also a leading provider of services to the transport sector, with industry leading skills in railway construction, operations and maintenance, aviation services and ports infrastructure and maintenance.

John Holland's strength lies in its ability to deliver diverse, complex and challenging major projects, its partnership approach to client relationships and absolute commitment to people and careers. John Holland has over 60 years' experience, work in hand of over \$6 billion and more than 7,000 people across Australia.
