Prime Media Group (ASX:PRT) today reported a core net profit after tax of \$19.4 million (excluding non-core items of \$14.7 million) for the half year ended 31 December 2012, an increase of \$3.4 million or 21.1% over the prior period.

Statutory net profit after tax inclusive of non-core items was \$4.6 million, a decline of 71.4% on the prior period. Non-core items included a non-cash write down of the company's radio licences of \$15 million.

<sup>&</sup>lt;sup>2</sup> Statutory net profit after tax includes continuing and discontinuing operations

Group revenue of \$144.1 million grew by \$5.4 million or 3.9% on the prior period and resulted in a \$1.4 million or 4.2% increase in EBITDA.

Prime Media Group CEO Ian Audsley said: "We're very pleased to deliver this core earnings result in a highly competitive and challenged advertising market. Television's share of national agency revenue<sup>3</sup> grew 2.8 share points to a 44.3 share, while audience grew 2.1 share point to a 40.2 share; a tremendous result in an Olympic telecast year on the Nine affiliates WIN & NBN.

The datacasting channel TV4me continues to make a contribution and we were very pleased to announce, just yesterday, that we will launch a second datacasting channel in May of this year".

Prime Radio continues to battle difficult trading conditions in a weakened Queensland economy. Total radio advertising revenue of \$9.2 million was back \$957K or 9.4% on the previous corresponding period. EBITDA of \$1.9 million was back \$638K or 25.2% on the previous corresponding period.

Mr Audsley said: "Upon reviewing the future cash flows of the radio business, the Board of Directors has taken the decision to impair the carrying value of the business by \$15 million. This non-cash accounting charge reflects the uncertainty in the regional Queensland radio market due to the lingering effects of three natural disasters in the past two years, mining job losses and the reduction in both federal and state government advertising. Combined with the fact that the full impact of recent significant flooding in central Queensland coastal markets is yet to be fully understood and the potential for further such occurrences in the future, the Board believes the impairment is prudent".

Core Earnings Per Share of 5.3 cents is a 20.4% favourable to the previous corresponding period.

The directors of Prime Media Group have declared a fully franked interim dividend of 4.0 cents per share.
