Data#3 Wins Microsoft World Wide Partner of the Year Award

Data#3 announced as the global winner of the 2013 Devices and Deployment Partner of the Year.

May 22, 2013; Brisbane, Australia: Data#3 Limited, one of Australia's leading Information and Communications Technology companies, today announced it has been selected as the successful recipient of the global Microsoft Devices and Deployment Partner of the Year award.

The Microsoft Partner Awards recognise global partners that have developed and delivered exceptional Microsoft-based solutions for their customers over the past year. Data#3 will be recognised at the 2013 award night in July in Houston, Texas, USA for its submission - Driving Windows 8 Adoption.

Data#3 Managing Director, John Grant said that the company is delighted to have been announced as the winner of this award.

"The Data#3 team is recognised by Microsoft as one of their leading partners in the Asia Pacific. This global award demonstrates that the company's ongoing investments in our award-winning Microsoft software licensing and services practice continue to deliver extraordinary value to our customers.

"Windows 8 is a critical part of Microsoft's strategy to become a Devices and Services Company. Data#3's role is to help our customers with roadmaps and technical expertise so that maximum business value can be extracted from Microsoft's world-leading innovations. Winning this award reflects the fact that we're on the right track and that the capabilities of the Data#3 team are world class.

"As an Australian-owned and operated business, we are excited to be recognised with such a prestigious global award and the team are all extremely proud of this achievement," concluded Grant.

This award builds upon the company's past achievements in being selected as a global finalist in Microsoft's 2011 Systems Management Partner of the Year award and the 2012 Innovative Customer Advocacy Partner of the Year award.
