MARKET ANNOUNCEMENT

UXC awarded Major Prime Systems Integration Contract by Queensland Health

UXC Limited is pleased to announce that Queensland Health has formally awarded UXC the Prime Systems Integrator role for the Standing Offer Arrangement for the Supply, Installation, Testing and Support of Telecommunications Products and Services known as SOA ICT-3187.

UXC and Queensland Health have finalised and signed contracts which will provide UXC with the opportunity to supply products and services including:

- Telecommunications Infrastructure Products
- Telecommunications Infrastructure Services
- Associated Service Delivery and Support Mechanisms.

The contract will enable UXC to provide core technologies including data and voice communications systems, wireless LAN systems, audio visual and video conferencing systems, paging and messaging systems, network management tools and ancillary services.

Queensland Health has been one of UXC's major clients for over 10 years. This 3 year plus two one year options panel contract provides UXC the opportunity to continue to grow its support in the delivery of health care services to the Queensland Community.

Cris Nicolli, Managing Director of UXC said, "We are very proud to have been selected for the Prime Systems Integrator role and the strategic importance of this to UXC.

Our experience in providing quality solutions and services, the depth of experience in the UXC Queensland offices and the strong alignment with major international infrastructure partners are key differentiators in the UXC approach. The award of a contract of this significance is very rewarding and confirms that UXC's strategic direction and investment in infrastructure capability is sound and strengthens our solutions focus."

This is another example of UXC being consistently viewed as a trusted and client centric organisation that can be relied upon to support complex, long term and large transformational projects. It is also demonstrative of UXC continuing to move further up the value chain to become a trusted partner focused on customer outcomes.

The impact of the awarding of this contract, together with the recently announced Gold Coast University Hospital and Telecommunications Facilities Management contracts will provide UXC with a strong second half revenue position.
