TRANSURBAN LAUNCHES 2013 SUSTAINABILITY REPORT

Transurban today released its 2013 Sustainability Report articulating a renewed sustainability strategy. The strategy highlights the focus areas - Be good neighbours, Use less and Think long term.

Under the focus areas, there are three business-wide initiatives:

- A community investment strategy;
- An energy reduction target for operations of management-controlled assets; and
- Sustainability objectives for new road or upgrade projects.

The principles inherent in these focus areas enhance Transurban's ability to deliver efficient and integrated transport networks that support productivity and community wellbeing.

The 2013 Sustainability Report is available online at www.transurban.com.
