

Press release

Rubik appoints Wayne Wilson as head of COIN

Sydney, 13 August, 2012: Rubik Financial Limited, the ASX-listed provider of financial technology and software to over 200 financial sector clients, today strengthened its expertise in wealth management with the appointment of Wayne Wilson as Managing Director – Wealth with immediate responsibility to head up COIN.

Mr Wilson, who has 25 years' experience in the wealth management industry, will as part of his responsibilities oversee the day-to-day running and operations of the COIN business. His appointment marks the next step of Rubik's expansion into the wealth management, following its recently completed purchase of leading wealth management software company, COIN.

Craig Coleman, Chairman of Rubik, said: "Wayne brings a unique skill set and depth of knowledge of the wealth management, advice technology and platform markets to the role. He is well-known and well respected in the wealth management industry. His experience and expertise will ensure we manage the COIN acquisition well and enhance our position in this segment".

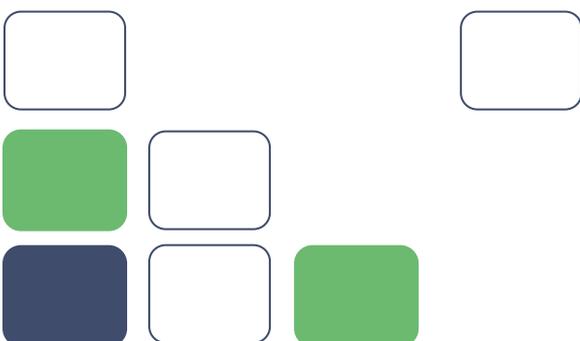

"Wayne was instrumental in the development of a number of platform and software solutions over recent years including Asgard's AdviserNETgain and Infinity Platform."

Mr Wilson has held a number of roles, most recently as a consultant with WRW Consulting. From 2009 – 2010 he was head of Asgard and Advance at BT Financial Group, and he has held various senior positions in wealth management at St George Bank from 2005 – 2009. He was Group Executive, Private Clients, with Perpetual Trustees from 1996 to 2000.

Speaking about his appointment, Mr Wilson said: "Rubik has a reputation for quality, reliability and security and I am excited to be joining the company at this new stage in its development. My experience in the wealth management, advice technology and platform space is a good complement to Rubik's core banking technology expertise in the financial sector.

"We are committed to Rubik being a leading provider of independent wealth technology in the Australasian market place."
